*Title counts subject to change

What makes Books on ScienceDirect unique?

Seamlessly interlinked alongside journals to support an uninterrupted research workflow

Books and journals are co-used on average **over 500,000+** times per month

90% of surveyed users* agree that in their work they often use books and journals together and our platform is built to best enable this

Discoverable through ScienceDirect Topics

With **24M+** users per month, topic pages surface relevant and authoritative overviews to help researchers access critical contextual knowledge in their natural research workflow

A user and data-driven publishing approach resulting in impactful, relevant content

Elsevier books have the highest relative citation impact among major book publishers in Scopus at **2.5****

*Source: TechValidate survey of 267 users of Elsevier ScienceDirect Books. TVID: 39C-DC2-A29.

**Based on 2020 Elsevier analysis of Scopus data on publishers that contribute >1% of indexed books with publication date 2015-19.

Using our analytical tools, insights and options, we work with you to identify where the gaps are in your library, so you can acquire the right content that best supports your users.

ScienceDirect®

Built upon thousands of journals and books and stringent quality standards, ScienceDirect delivers reliable information to help move research forward. It offers smart, intuitive functionality such as topic pages and personalized recommendations so researchers can answer pressing questions in less time, generate ideas, get in-depth insights about trending research topics, stay on top of their field, and take the next big step towards discovery.
