Vodafone
Power to you

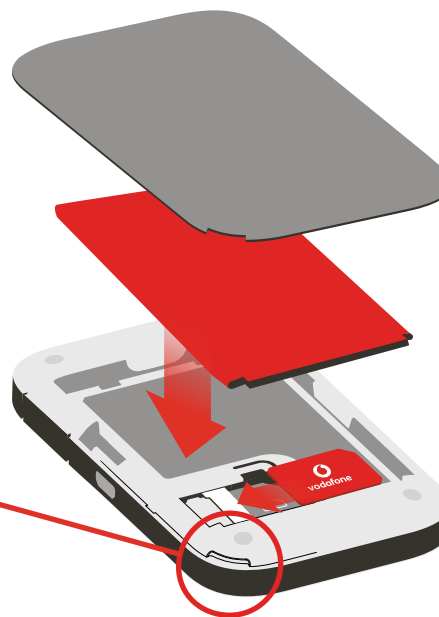

Your Vodafone Pocket WiFi®
network name & password

SSID sticker here

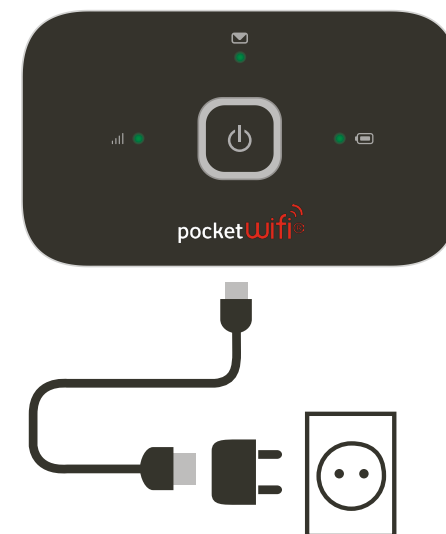

1 Open

2 Insert SIM & battery

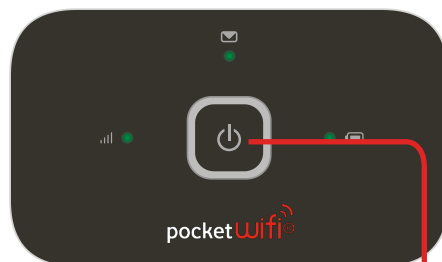

3 Charge

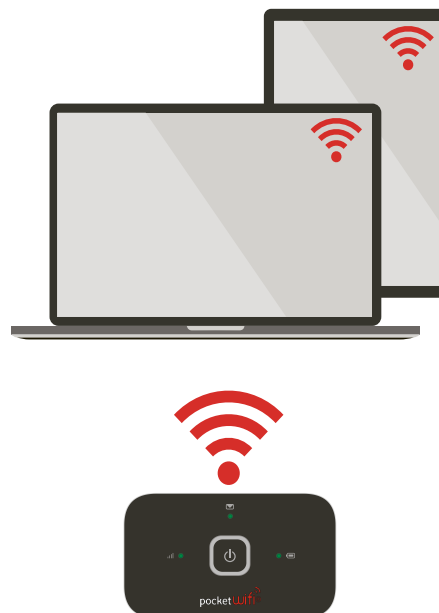

Note: you can use your computer's USB port for power as well.

4 Start

Push and hold the power key

5 Connect

Choose WiFi on your computer, smartphone or tablet settings, then select your Pocket WiFi® network name (SSID).

Enter the password to connect and open the online dashboard.

When you first connect to the network you may be asked to activate your SIM. If you're asked to unlock your SIM card, go to <http://pocket.wifi> and enter the PIN for your SIM.

Turn over for more information about using your Vodafone Pocket WiFi®.

Using the online dashboard

Vodafone Pocket WiFi® online dashboard

Go to <http://pocket.wifi> if the Online Dashboard doesn't automatically appear when you connect.

Navigation tabs

Select Pocket WiFi® for an overview, SMS for messages, or Account for your account details.

Inbox

You have no current messages

Vodafone Pocket WiFi help

In the Current Network section you will find all details relevant to your current connection. Within this section you can easily check to confirm that you can access the internet. You are successfully connected to the internet

Important items to check include:
1. SIM is inserted correctly
2. If "Searching for Network..." is continually showing, try moving to another physical location, nearer a

Should you still be unable to connect please [consult the help section](#) for further advice

Help
